Subject: RE: net metering

Dear Mr. Howlett,

This is to acknowledge receipt of your email to the Public Service Commission. I am forwarding your email to our Clerk's Office for processing. Your email will become a part of Docket No. 2005-385-E and will be posted on our website under this docket.

Please let me know if you should require any additional information.

Sincerely,

Deborah Easterling
Administrative Assistant

Subject: net metering

Thank you for agreeing to hold a meeting on net metering of solar power. I can't understand why anyone would be against encouraging the use of a truly clean power source. I think we are being laughed at nationally for being behind the times and encouraging green energy will help change that perception.
